

□ Documents - Fact Sheets- Practice Guidelines

Documents

The IASSID releases, from time to time, reports and documents of interest to members and other interested persons. The documents can be purchased or gratis copies can be downloaded. For purchase information of the books, see under title or please contact the IASSID at iassidoffice@aol.com

1. THE EDINBURGH PRINCIPLES

This document was developed by the Edinburgh Working Group on Dementia Care Practices at a special meeting held in Edinburgh, Scotland (February 5-7, 2001). The meeting was organized by the University of Stirling (Scotland), the University at Albany (USA), and the University of Illinois at Chicago (USA). The document contains information about universally applicable working practices for the community supports of adults with intellectual disabilities affected by Alzheimer disease and related dementias. It is available for distribution with attribution to the IASSID. IASSID Council approved its distribution on September 27, 2001.
